

Kidz Therapy Virtual Summer Program

7/6/20 - 8/14/20

This summer, we are offering a series of virtual individual classes designed to target a variety of skills including motor skills (gross motor and fine motor), speech and language and early reading. We also have a series of individual parent training sessions which can address a variety of areas of concern.

Each class consists of 6 weekly 30-minute sessions conducted by appropriately licensed and/or certified professionals who will tailor the content to your child's specific needs. Take a look at what's available for your child this summer:

Motor Development

"Let's Gear Up for School" Children will work on improving their grasping, visual motor, and fine motor skills necessary for tackling academic activities. (ages 3-5)

"Twist and Shout" (Sensory Motor) - Children will learn to integrate all their senses by participating in activities that challenge their senses of balance, movement, touch, hearing and vision. (ages 4-5)

"Move Your Muscles" Core strength, balance, body awareness, and posture lead to increased endurance. Fun gross motor exercises and games help a child improve their overall gross motor skills. Sessions will include time for warm-up, gross motor play and exercises (ages 3-5)

Parent Training

Individual Parent Training

Parent participation and involvement is an integral part of each child's program. The family/parent trainer will assist in broadening the parental knowledge base of interventions related to your child's diagnosis. Families are taught strategies that enable them to contribute to their child's learning at home and in the community. *45-minute sessions

Speech and Language

"Articulation Station" These classes will focus on discriminating between sounds and producing sounds in isolation, syllables and words. A different sound class will be targeted weekly. (ages 3-5)

"Language and Laughs" These classes will provide reinforcement in all areas of language including following directions, vocabulary, grammar and social skills. (ages 3-5)

Education

"Ready, Set, Kindergarten" - It's time to get ready for kindergarten. This class will focus on pre-academic and core curriculum skills. Your child will practice his/her listening, writing, cutting and other pre-academic skills including numbers, letters and colors. (ages 4-5)

"Roots of Reading" (Pre-Reading Skills) – Based on the Wilson Foundations Reading Program. Utilizing a multi-sensory approach, children will begin to master letter formation and sound-letter association. (ages 4-5)

All sessions are 30 minutes except Parent Training (45 minutes)

Tuition per class:

-\$300 for six (6) 30-minute *Motor, Speech and Language* or *Education* sessions

-\$450 for six (6) 45-minute *Parent Training* sessions
