- Licensed Mental Health Counselors

Age Range of Students:

- Early Intervention
- Preschool
- Elementary

Course Level: Day 1: Introductory;
Days 2 & 3: Intermediate

Learning Methods: Lecture,
Discussion, Demonstration and Practice

Teaching Learners with Autism Spectrum Disorder (Birth – Grade 2)

This 3-day workshop provides attendees with an overview of Autism Spectrum Disorder (ASD) and an in-depth approach to teaching young learners with ASD. Day 1 will provide an overview of Autism and Behavior Analysis. Days 2 and 3 will provide a more in-depth training of teaching procedures related to expanding a child's verbal behavior. This will include hands-on rehearsal and practice amongst participants. This will allow participants to practice the strategies put forth, and the presenters will provide hands-on feedback.

It is highly recommended that you take days 2 and 3 together, even though you have the option of taking only one. If you choose to attend only one of the two, you will not be fully exposed to the scope of the training.

For those interested in becoming a Module 1-trained ABA early intervention provider in Nassau and/or Suffolk County, this three-day workshop will help prepare you for the examination. Therefore, if you are using this course in preparation for the exam, it is recommended that you attend all three dates. Day 1 is very introductory but important if you are taking the workshop to prepare for the Tier 1 / 2 examinations.

You may take EITHER one, two or all three sessions. Sign up for multiple days... get a discount.

<u>Session 1</u>	<u>Session 2</u>	<u>Session 3</u>
<p>Understanding Autism and Behavior Analysis</p> <p>April 23, 2019 (Tues)</p> <p>8:30 am - 4:00 pm</p>	<p>Building a Mand Repertoire & Errorless Teaching Procedures</p> <p>April 24, 2019 (Wed)</p> <p>8:30 am - 4:00 pm</p>	<p>Intensive Teaching Procedures: Tacts, Intraverbals & Listener Behavior</p> <p>April 25, 2019 (Thurs)</p> <p>8:30 am - 4:00 pm</p>
<p>This session will provide a review of ASD and will introduce some key concepts and strategies related to incorporating empirically-supported methods of teaching learners with ASD. Emphasis will be placed on utilizing behavioral science (applied behavior analysis) to target social-communication skills, early learning skills, and build a positive behavioral repertoire in young learners with ASD. Proper assessment of a learner's skills and factors that can impact the individual's progress will also be covered.</p> <p>Agenda</p> <p>8:30 Brief Overview of ASD 9:00 Understanding the Learner with ASD 10:00 Break 10:15 Behavior Analytic Approach to Teaching 11:30 Collaborative Approach to Teaching 12:00 Lunch 1:00 Data Collection 1:30 Graphing and Analysis 2:30 Break (15 minutes) 2:45 Verbal Operants</p>	<p>During this session, participants will learn the key elements to successfully motivate children with Autism Spectrum Disorder to express their wants and needs (mand repertoire) and use errorless teaching procedures to maintain motivation and develop a positive learning environment. Alternative/augmentative communication strategies will be reviewed, with particular emphasis on the Picture Exchange Communication System (PECS) and sign language.</p> <p>Agenda</p> <p>8:30 Pairing Procedures 9:00 Building a Mand Repertoire 10:30 Break 10:45 Using Augmentative Communication Systems to Mand 11:45 Practice Trials and Data Collection 12:00 Lunch 1:00 Mand Continued 2:00 Errorless Teaching Procedures 3:00 Break 3:15 Break-out Rehearsal Sessions</p>	<p>This day will explore the teaching of verbal behavior beyond the mand exchange and will focus on teaching expressive language skills such as labeling (tacts) and intraverbal interactions. Receptive (listener behavior) will also be reviewed. Similar to day two, errorless teacher procedures will be incorporated into the rehearsal sessions. Intensive data collection procedures will also be reviewed during this session.</p> <p>Agenda</p> <p>8:30 Intensive Teaching Data Collection & Graphing 9:30 Program Book Development 10:30 Break 10:45 Teaching Tacts 11:30 Teaching Intraverbals 12:00 Lunch 1:00 Tacts & Intraverbals Practice Breakout 2:00 Teaching Listener Behavior 3:00 Break (15 minutes) 3:15 Teaching Listener Behavior 3:45 Final Breakout Session</p>
<p>Learner Objectives - As a result of this activity, participant will be able to:</p>		
<ul style="list-style-type: none"> • Identify the two core components of ASD • Explain the four-term contingency and functions of behavior • Describe the principles of positive and negative reinforcement • Identify important early language skills to target 	<ul style="list-style-type: none"> • Explain how to pair with a new learner • Identify steps towards developing a mand repertoire • Describe how to use augmentative communication systems to build a mand repertoire • Describe prompt, fade, transfer errorless system 	<ul style="list-style-type: none"> • Describe intensive data collection systems • Identify key elements of a program book • Identify difference between tacts, intraverbals, and listener behavior • Explain how to track progress using cold probe & retention probe procedures

Biographical Information

Lenny Caltabiano, Psy.D., NCSP is a NYS Licensed Psychologist, a NYS and Nationally Certified School Psychologist and currently is the Director of the Autism Behavioral Services Department at Kidz Therapy & Gayle E. Kligman Therapeutic Resources. He received his doctorate from St. John's University. His primary focus is on the assessment and treatment of behavior difficulties within the school setting. Dr. Caltabiano has dedicated his career to individuals with autism and other neurodevelopmental disorders. He has presented at the national and local levels on these topics and most recently has lectured at St. John's College. He provides consultation and parent training services for children birth through 21. Prior to working at Kidz/GEK, Dr. Caltabiano worked as a school psychologist in the public school setting.

Jaime Gettinger-Webber, M.S.SPED, BCBA has a BS in Childhood Education and an MS in Students with Disabilities. She has previously worked with children with various disabilities as a teaching assistant and classroom teacher. She provides direct care and behavioral consultation services utilizing the principles of Applied Behavior Analysis. Her primary interest include autism and behavioral assessments and analysis in the home and school settings.
