Adapt, Improve and Overcome Reimagining our Approach to Remote Learning

Target Audience: Teachers School Leaders Social Workers
 Psychologists Speech/Language Pathologists

Age Range of Students: Preschool Elem MS HS

Course Level & Learning Methods: Intermediate; Lecture, demonstration, group activities & practice

Presentation: Live-Virtual Online

Course Description

As the COVID-19 pandemic impacted the nation, educational professionals were forced to adapt to online platforms and provide instruction with little guidance and virtually no time to prepare.

As the educational community continues to innovate new strategies to best meet the needs of students with disabilities based on ever-changing conditions, alternatives for typical in-person activities and best practices have started to emerge. During this workshop, the presenter will describe strategies and technologies to enhance the remote classroom to optimize students' academic learning time. Participants will learn innovative ways to engage students with special needs by incorporating opportunities to respond, manage off-task behaviors while promoting on-task behaviors, and facilitate effective instruction while considering IEP goals and existing curricula. Additionally, participants will be provided with time for application to their own professional setting and discussion with others.

Learner Objectives

As a result of this activity, the participant will be able to:

- Identify ways to engage learners with special needs during remote, synchronous instruction
- Discuss methods to manage behaviors via an online platform
- Discuss ways to design and virtually deliver effective instruction to promote mastery of student learning

Agenda

- 4:30 Introduction: review and reflection
- 4:45 Tips for engaging learners (e.g., opportunities to respond)
- 5:15 Best practices when managing behaviors (preventions and intervention)
- 6:00 Break
- 6:15 Designing and delivering effective instruction (innovative methods and strategies)
- 7:30 Final discussion, questions, and comments
- 7:45 Dismissal

BIOGRAPHICAL INFORMATION

Katie E. Hoffman is a Teaching Professor of Special Education at The Pennsylvania State University where she serves as the Coordinator for the Online M. Ed Program in Special Education. Dr. Hoffman designs and teaches courses for educational professionals that focus on supporting and instructing learners with academic and behavioral needs. Prior to earning her graduate degree from Penn State University, Katie was a special educator in northern New Jersey.
